

TASK 1

Muhammad Azhar Bhutto 2280121

Sir I forgot to add screenshots during the setup of VM'S but here are the other screenshots

The screenshot shows the Microsoft Azure portal interface. The left sidebar has a navigation tree with 'myVM' selected. Under 'Connect', 'Native RDP' is chosen. The main content area displays connection details:

- Source machine:** Windows, Local IP: 202.47.51.197, Connecting over a VPN?
- Destination VM:** VM IP address: 172.206.68.72, VM port: 3389
- Connection prerequisites:** VM access, Check inbound NSG rules (radio button selected)
- Buttons:** Check access, Connect using RDP file

In the top right, there's a 'Notifications' sidebar with a single entry:

- Deployment succeeded**: Deployment 'CreateVm- MicrosoftWindowsServer.WindowsServer-202-20251107024705' to resource group 'myRescGroup' was successful.

myVM - 172.206.68.72:3389 - Remote Desktop Connection
